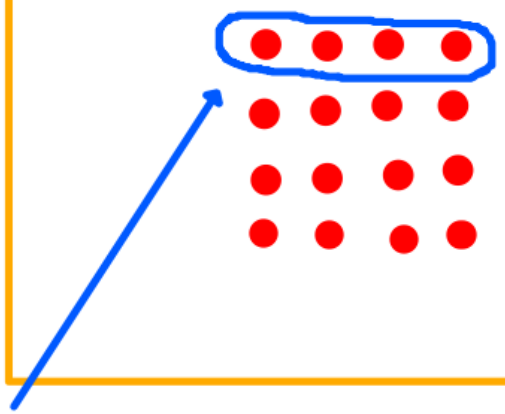
Wednesday multiplication

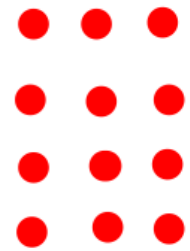
Read the multiplication number sentences using the language 'lots of'.

E.g. 4 x 4 = (4 lots of 4)

4 x 3 = (4 lots of 3)

4 x 4 = 16 > 4 x 3 = 12

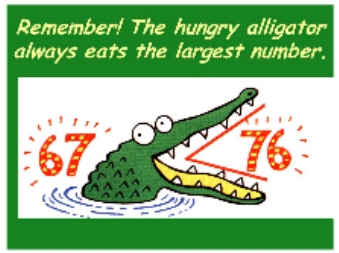




Draw your array to calculate your answer. Draw one row at a time e.g. 1 lot of 4 as a row of 4 dots. Then 2 lots of 4 as another row of dots, then 3 lots of 4 and finally 4 lots of 4 as a third row. Then count how many dots there are altogether.

Do the same for the other side 4 x 3 =

We know that 16 is greater than 12. so the symbol is >



Lemon & lime
