## Week Beginning 8<sup>th</sup> June 2020

### Suggestions for activities at home

This half term we are going to moving onto our new topic called **Splash!**

The splash topic is all about water.

Water is used for lots of things. Can you and your child talk about what you use water for at home?

### Monday

Talk to your child about how we use water. What do they notice?

Do they have any questions about water? With an adult you could see if you can use an information book or google to research the answers to the questions.

Have a look at the short powerpoint and watch the videos of water, listen to the different sounds.

### Maths

Watch count to 20 song.

<https://www.youtube.com/watch?v=OVLxWIHRD4E>

Today we are going to practise counting up to 10 objects out of a larger group. Write some number labels 1 -1 0 and then add the correct number of objects to each number. Make sure you use things you have lots of so you can count out of a larger group! You could use toys, part of a construction set, cereal.

## Week Beginning 8<sup>th</sup> June 2020

### Tuesday

Watch The Flying Bath

<https://www.youtube.com/watch?v=o3dcyQ3AcXE>

Have a go at drawing your own flying bath, who would come on your adventure with you?  
Where would you go?

### Maths

Watch Number blocks - I can count to 20

[https://www.youtube.com/watch?v=xdyD\\_pLnBBk](https://www.youtube.com/watch?v=xdyD_pLnBBk)

Make a pile of household objects, it could be socks, toys, beads etc. Ask your adult to say a number between 1 and 10 and see if you can get that amount out of the pile. If you want a challenge you could try going up to 20.

### Wednesday

## Nursery Weekly Home Learning Suggestions Week Beginning 8<sup>th</sup> June 2020

Today, re watch The Flying Bath to remind yourself of the story.  
If you need some story inspiration you could watch this clip from Mary Poppins 2. It shows Mary running a deep bubble bath for the children and throwing toys in it.

<https://www.youtube.com/watch?v=LHnhBv32udY>

Then have a go at retelling the story using your toys, you could use action figures, dolls, teddies, Happyland people, Playmobil. You could even set your adventure in the bath!

### Maths

Get a bucket or other large container, could be a mixing bowl or large jug. Then using a plastic cup count how many cups of water it takes to fill the container. You could experiment with the size of the containers. How many cups does it take to fill a jug? How many cups does it take to fill a bucket? For a challenge you could try and see what happens if you use your cup to fill an egg cup? Will the water fit or will it overflow?

### Thursday

Watch Cyril the lonely cloud.

Talk about how Cyril might be feeling. Have a go at making your own cloud. Have a look at the sky, can you see any clouds? What words can you use to describe the clouds or sky?

### Maths

Catching peas!

Fill a large container with water and if you have any frozen peas or sweetcorn, add them to the water. How many can you catch at once with a table spoon? How many can you catch with a net?

When you have caught your peas put them in a group and try again. Once you have 2 groups of peas add them together to see how many you have altogether.

## Week Beginning 8<sup>th</sup> June 2020

Friday

Our new value for this week is **team work**

Practise working with your family as a team, you could do some races together, build something using a construction set, do some art together or play a game. We would love to see what your family team can do.

### Maths

Have a go at the adding activity sheet. Count how many of each group there are and then see how many there is altogether.

#### The Little Fish

Write down the answers in the circles.

	+		=	<input type="text"/>
	+		=	<input type="text"/>
	+		=	<input type="text"/>
	+		=	<input type="text"/>
	+		=	<input type="text"/>
	+		=	<input type="text"/>

Phonics- through the week

## Nursery Weekly Home Learning Suggestions Week Beginning 8<sup>th</sup> June 2020

Play I-spy games to practise hearing the initial sounds in words.

Listen out to sounds around you at home or out and about - what words can you say to describe the sound e.g. Aeroplane noise - "neeeeeooowww",  
Car sound - "brrrrrooom", rain - "pitter patter", stamping in a puddle "splash".

Listen to some water sounds on youtube and think about words you can use to describe the sounds, such as pitter patter, splash, splosh  
<https://www.youtube.com/watch?v=aJaZc4E8Y4U>

### Other

Have a go at painting with water. You need a paintbrush and some water, you could paint on a fence, on a wall outside, on the pavement. If it is a hot day why don't you see long it lasts for before the sun dries it up.

Have a go at some water crafts, you could make a rain drop and for a challenge write the sound you can hear when a rain drop falls on it. Ask your adult to help you.

Can you make a flying bath tub out of junk modelling? Can you make it big enough for your favourite toys to fly in?

## Nursery Weekly Home Learning Suggestions Week Beginning 8<sup>th</sup> June 2020

Have a go at some Cosmic Kids under the sea yoga.

<https://www.youtube.com/watch?v=LhYtcadR9nw>

### Rain walk

If it rains, go on a rainy walk and splash in the puddles. What does the rain feel like on your skin? What does it sound like under your hood? Watch how the water moves as you jump into the puddle.
