behaviour*

In November we will be exploring the value of

# Forgiveness.

What does the word mean?  
Do you have any ideas?

This is what it says in the dictionary:

Forgive: to stop feeling angry towards someone for a flaw or a mistake.

Forgiveness: the action of forgiving.

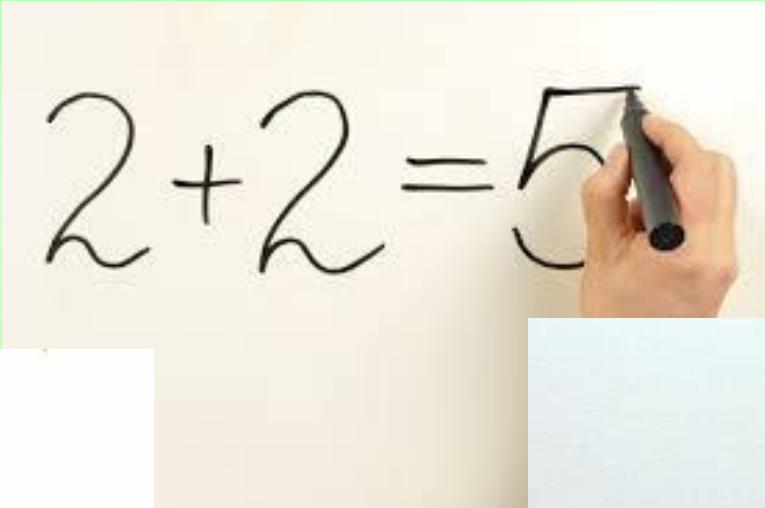

# Do you remember our value of Learning?

What did we learn about making mistakes?

# Everyone makes mistakes!

A hand holding a black marker is writing the equation  $2+2=5$  on a white surface. The '5' is being completed as the hand moves across it.
$$2+2=5$$

**MISTAEKS  
HAPPEN.**

Sometimes we are  
angry with  
ourselves.

Sometimes we  
might make other  
people angry.

*A value is a principle  
that guides our  
thinking and  
behaviour*

*How does Forgiveness do  
this?*

*Think for yourself!*  
*What would the world be like if we never  
forgave ourselves or others when mistakes are  
made?*

Over the next month  
we will think about  
how it feels when we  
make a mistake.

We will think about  
how you can forgive  
yourself and others  
and express your  
emotions in a positive  
way- even when you  
are angry!

It takes a strong person  
to say sorry,  
and an even  
**STRONGER**  
person to **FORGIVE.**

Everyone makes mistakes. If you can't forgive others, don't expect others to forgive you.
