

PE and Sports Premium Strategy at Stillness Infant School 2020-21

How we use the PE and Sport Premium

At Stillness Infant school, we recognise the contribution of PE to the health and well-being of our children. We believe that an innovative, varied PE curriculum and extra-curricular opportunities have a positive influence on the concentration, attitude and academic achievement of all our children, and will encourage the development of healthy, active lifestyles. We focus on exercise and healthy eating in many parts of the curriculum, including Physical Education, Design Technology, Science and PSHE.

Our school uses the PE and sport premium to make additional and sustainable improvements to the quality of PE and sport we offer, entering into more competitive sports activities and training our staff to deliver in-house quality PE sessions.

We look to see an improvement against the following key indicators (KI):

1. The engagement of **all** pupils in regular physical activity – kick-starting healthy active lifestyles
2. The profile of PE and sport being raised across the school as a tool for whole school improvement
3. Increased confidence, knowledge and skills of all staff in teaching PE and sport
4. Broader experience of a range of sports and activities offered to all pupils
5. Increased participation in competitive sport.
