Show them the tray again and see if they can work out the missing object. Start with a few objects then add more to tray to increase the difficulty!</p>  <p>You could make some teeth out of playdough. You could make human, shark or crocodile teeth! Count how many you make and line them up. You could use some playdough as gums and press in some beads or dried beans to be teeth. Now try giving them a brush with an old toothbrush if you have one, or a toy toothbrush.</p>
